Supply Abolishment	All feeders	20 business days	1,700	1,503	1,483	98.7%
Miscellaneous services	All feeders	On an agreed date	739	380	377	99.2%
Total			121,691	75,864	73,501	96.9%

Notes

- a) The timeframes for completion (obligation windows) of a standard service order will commence on the later of: (i) satisfaction by the customer or the retailer (as appropriate) of all preconditions required under electricity legislation; and (ii) receipt by the distribution entity of all relevant documentation, including a valid service order request.
- b) The number of service orders received includes service orders that have been cancelled or have been unable to be completed due to circumstances on site.
- c) The number of service orders received is based on the receipt date of the service order and the due date can fall outside of the reporting quarter.
- d) A business day does not include a local holiday in the district where the premises is located.
- e) Unless a small customer has requested to be disconnected, where the standard service order is a disconnection, a business day does not include a day between 20 Dec and 31 Dec (inclusive) in any year.
- f) If the “timeframe for completion” of a standard service order for disconnection of small customer’s premises ends on a Friday or on a day before a Queensland wide or local holiday in the district where the premises is located, Energex is not required to disconnect on that day but must disconnect by the next business day. This does not apply if the small customer has requested the disconnection.
- g) ‘Other Locations’ are detailed in Schedule 1 of the Queensland Competition Authority’s Electricity Distribution Network Code
