I elect NOT to expedite this application and connection offer (tick to opt out)

If you tick this box and elect NOT to expedite, Energex will forward an offer, which must be signed and returned before Energex will progress with the connection. Otherwise, by electing to expedite (at no additional cost), you accept the terms and conditions of the model standing offer (viewable at [www.energex.com.au/umsmodelstandingoffer](http://www.energex.com.au/umsmodelstandingoffer)) from the date of this application. But if Energex determines that network alterations are required to complete the connection, the option to expedite is no longer available and Energex will advise you accordingly.
