GSL Apr-Jun 26 Qtr4 2025-26 Report

First day of period	01 Apr 26
Last day of period	30 Jun 26
Data Capture:	13 Aug 26

NOTE: Financial Year To Date and Quarterly performance data is accurate at the time of data capture. The number of GSL payments given includes both automatically identified GSLs and customer-initiated claims that have been made. The number of customer claims is the total number of customer claims received (the sum of customer claims made and paid, and customer claims rejected).

Customers reaching cap (clause 2.4.2(a)(i)(v))	No. of customers who reached the cap on scheme entitlements	27	8	107	14	156

Additional Comments	Quarter One Despite using best endeavours, Energex was unable to obtain the necessary customer data from retailers to process one GSL (one appointment), that was eligible for payment. 27 customers reached the \$600 cap on the GSL Scheme Entitlements as per clause 2.3.15 of the Electricity Distribution Network Code. All customers who reached the cap were paid GSLs resulting from connections not provided by the agreed date (noting the payment amount accrues at \$75 a day until the connection is completed, or the GSL cap payment price is reached).
	Quarter Two Despite using best endeavours, Energex was unable to obtain the necessary customer data from retailers to process seven GSLs (seven appointments), that were eligible for payment. Eight customers reached the \$600 cap on the GSL Scheme Entitlements as per clause 2.3.15 of the Electricity Distribution Network Code. All customers who reached the cap were paid GSLs resulting from connections not provided by the agreed date (noting the payment amount accrues at \$75 a day until the connection is completed, or the GSL cap payment price is reached).
	Quarter Three Despite using best endeavours, Energex was unable to obtain the necessary customer data from retailers to process 28 GSLs (6 connection and 22 reliability duration), that were eligible for payment. 107 customers reached the \$600 cap on the GSL Scheme Entitlements as per clause 2.3.15 of the Electricity Distribution Network Code. All customers who reached the cap were paid GSLs resulting from connections not provided by the agreed date. Of these, 78 instances of connections not provided by the agreed date occurred during a declared major event in November 2025, noting the payment amount accrues at \$75 a day until the connection is completed, or the GSL cap payment price is reached. One failure to attend appointment on time GSL had an occurrence date of January 2025, and was therefore paid at the 2020-2025 GSL rate of \$62.
	Quarter Four Despite using best endeavours, Energex was unable to obtain the necessary customer data from retailers to process three GSLs (2 Connection and 1 Reliability Duration), that were eligible for payment. Fourteen customers reached the \$600 cap on the GSL Scheme Entitlements as per clause 2.3.15 of the Electricity Distribution Network Code. All customers who reached the cap were paid GSLs resulting from connections not provided by the agreed date. 199 instances of connections not provided by the agreed date occurred due to the obligation date being missed, noting the payment amount accrues at \$75 a day until the connection is completed, or the GSL cap payment price is reached.
